THE PRE-DEPOSIT PROP & FOREX SURVIVAL MANUAL

Standalone Post-Sale Companion Pocket Pamphlet ($1.99) · Zero Subscriptions · Zero Guru Upsells

Contains the 8 Proven In-The-Wild Beneficial Mechanisms (`BM-01..BM-08`) engineered into 7 Field Modules (`P1..P7`):

- **Module P1 (`BM-01`):** The True-Risk Drawdown De-Masking Worksheet
- **Module P2 (`BM-02`):** The 0.25% Quarter-Kelly Position Sizer & 2-Strike Lock
- **Module P3 (`BM-03`):** Regulated CME Micro FX (`M6E`) vs Offshore B-Book Gate
- **Module P4 (`BM-04`):** The 30-Minute News-Window Blackout & T-Cost Filter
- **Module P5 (`BM-05`):** The 90-Day / 100-Trade Zero-Fee Paper Expectancy Ledger
- **Module P6 (`BM-06, BM-07`):** The 120-Day Chargeback Dispute & Fine-Print Audit Kit
- **Module P7 (`BM-08`):** The 30-Day Quantitative Skill Translation Matrix (`$38.90–$55.00/hr`)

MODULES P1 & P2: DE-MASKING LEVERAGE & QUARTER-KELLY SIZING ([F-023])

Module P1 (BM-01 — True-Risk De-Masking): Never size against nominal headline capital ($100,000). Your real capital is the **Maximum Trailing Drawdown Allowance** ($5,000 daily / $10,000 max).

• **Module P2 (BM-02 — 0.25% Nominal / 2.5% True-Buffer Cap):** Cap per-trade risk at 0.25% of nominal ($250 on a $100k challenge = 2.5% of real drawdown buffer).

• **The 2-Strike Intraday Lock:** Hard stop at 2 losing trades in a 24-hour window (max -0.50% intraday loss—10x safer than the 5% absorbing barrier).

MODULES P3 & P4: REGULATED VENUE GATE & T-COST FILTER ([F-023, F-025])

Module P3 (BM-03 — Regulated Exchange Gate): Trade regulated cash micro-lots (0.01) or CME Micro FX Futures (M6E / M6B, centralized clearing, transparent depth-of-book, IRC Section 1256 60/40 tax treatment) instead of offshore unlicensed B-book simulators.

• **Module P4 (BM-04 — 30-Minute News Blackout):** Flatten all positions 15 minutes before and 15 minutes after Tier-1 macro releases (CPI, NFP, FOMC) to defeat asymmetric stop-loss slippage ([K-015]).

MODULE P5 (BM-05): THE 90-DAY ZERO-FEE PAPER LEDGER (TRADES 001–050)

Log 100 consecutive trades on a free demo account over 90 days with realistic slippage before spending $1 ([F-026]):

MODULE P5 (CONT.): EXPECTANCY & SHARPE TRACKING GRID (TRADES 051–100)

TradeBatch	Win % (≥55%?)	Max Intraday DD (<2.5%?)	Net R-Multiple (>+0.25R?)	Hours Logged
#001–025	_____%	_____%	_____ R	_____ hrs
#026–050	_____%	_____%	_____ R	_____ hrs
#051–075	_____%	_____%	_____ R	_____ hrs
#076–100	_____%	_____%	_____ R	_____ hrs

MODULE P6 (BM-06, BM-07): THE 120-DAY CHARGEBACK & CONTRACT AUDIT ([F-021, K-015])

1. Pre-Purchase Fine-Print Red Flags (BM-07): Walk away immediately if the contract contains: (a) Equity-high intraday trailing drawdown, (b) Retroactive 30% single-trade consistency rules, (c) Mandatory minimum trading days combined with news blackouts, or (d) Unilateral B-book execution clauses.

2. Visa Reason Code 13.1 / Mastercard 4853 Dispute Kit (BM-06): File within **120 days** of transaction date when a firm freezes withdrawals or revokes its MT5 license. Attach: (1) Checkout receipt, (2) SHA-256 archived Terms PDF, (3) Withdrawal denial screenshot.

MODULE P7 (BM-08): 30-DAY QUANTITATIVE SKILL TRANSLATION MATRIX ([F-015..F-018, F-024])

Retail Trading Habit	Corporate / Contract Equivalent	Audited BLS Pay
Coding MT5 / PineScript indicators	**Quant Backtest & Execution Engineer**	$55.00/hr
Tracking FX macro & rates calendars	**Corporate FX Treasury Risk Analyst**	$49.20/hr
Building equity-curve & win-rate sheets	**Financial Data / SQL BI Analyst**	$44.50/hr
Explaining drawdown & risk rules	**Series 65 Registered Paraplanner**	$38.90/hr

PERSONAL STOP-RULE TRIPWIRES ([F-026])

STAKE CAP: $500 · WAIT CAP: 6.0 MONTHS · PAYOFF FLOOR: $29.76/HR · ITISWHATITIS.BIZ
