AUDITED VERDICT: PROBABLY WON'T WORK (2.4% ODDS)

WHY YOUR FOREX PROP CHALLENGE PROBABLY WILL FAIL

EVEN IF YOUR AI CHAT BOT LIKES YOUR CHANCES!

Funded Trader Evaluations, 100x Leverage, Dubai Balcony Laptops, and the $310 Million B-Book Reset Machine

We reveal the secret method in the first 2 chapters...
(And why Step 7 was mysteriously left out of your starter box.)

BY THE IIWII / Y-IT FORENSIC DESK · OCTOBER 2026

PHASE 1 · VIBRANT HOPE // CHAPTER 01 · RECTO OPENER

CHAPTER 1: THE PROMISE

FORMAT: MAGAZINE-AD LIFESTYLE COLLAGE · WHAT THEY ARE SELLING YOU

11:42 PM on a Tuesday: The Flannel Pajama Arbitrage

It is 11:42 PM on a Tuesday ([C-005]). Across the street, your neighbor Greg is ironing a damp polyester-blend dress shirt so he can wake up at 6:15 AM, scrape gray slush off a Honda Civic, and sit in forty-five minutes of brake-light purgatory for the privilege of asking a regional vice president named Todd if he can leave twenty minutes early on Friday for a root canal.

You, meanwhile, are sitting on the edge of your sofa in flannel pajama pants, bathed in the serene sapphire glow of MetaTrader 5 ([C-005], [C-013]). Somewhere over the Atlantic, the Tokyo–London liquidity bridge is waking up. You don't have a warehouse. You don't have employees. You don't even have pants with a zipper on right now. You tap three glass buttons on your phone, bracket a 40-pip XAU/USD (Gold) displacement candle, set your phone on the nightstand, and wake up at 7:30 AM to a **$2,400 payout notification** before your toaster pops ([C-005]).

[COLLAGE ARTIFACT #01 — THE MIDNIGHT NOTIFICATION BANNER]:
"PAYOUT APPROVED: $2,400.00 USD · Account #FT-200K · Split: 90% Trader / 10% House · Time Elapsed: 11 Minutes." ([C-001], [C-005])

SECTION 1: THE VISION — WHY BEG FOR A RAISE WHEN YOU CAN TRADE SOMEONE ELSE'S $200,000?

For half a century, the **$7.5 trillion-a-day** foreign exchange market ([C-002]) kept a velvet rope across the lobby. Even if you could read a candlestick chart like Mozart reading sheet music, pulling life-changing income out of currency pairs required $100,000 of your own post-tax savings sitting in a brokerage vault.

Welcome to the **Funded Trader Revolution** ([C-001]). Modern proprietary evaluation firms have blown the vault doors off institutional leverage: pass a simple 2-Step digital audition in **14 days**, and they hand you the keys to a **$100,000 to $200,000 funded trading account**—letting you **keep up to 90% of every dollar you extract** with **zero personal capital at risk** ([C-001]).

Think about the math they put on the whiteboard: a modest 5% gain on a $200,000 account is $10,000 in a single month ([C-001], [C-002]). You don't need to find clients. You just take a tiny sip from a $7.5 trillion river.

SECTION 2: THE FEELING — ZERO BOXES, ZERO BOSSES, PURE LIQUIDITY

Compare funded trading against every other "side hustle" cluttering your social feed ([C-006]). E-commerce dropshipping? You're arguing on WhatsApp with a factory in Yiwu over cracked garlic presses at 3:00 AM. Digital marketing agency? You're cold-calling local roofers who hang up on you while eating lunch. Amazon FBA? Your two-car garage is stacked to the rafters with unsold posture correctors.

In foreign exchange, **the Japanese Yen never calls customer support demanding a refund** ([C-006]). The British Pound never leaves a one-star review because FedEx dented the box. Currency pairs never expire on a warehouse shelf, never ghost your invoice, and settle in crisp bi-weekly wire transfers every **14 days** ([C-006])—whether your MacBook is open at a kitchen counter in Ohio or on a glass balcony overlooking Dubai Marina next to a matte-black G-Wagon ([C-013]).

SECTION 3: THE PLAN — 45 MINUTES AT THE LONDON–NEW YORK OVERLAP

Amateur traders burn out because they stare at one-minute candles for fourteen hours a day like caffeinated raccoons. The Funded Professional does the exact opposite. As every VSL pitch explains, you only need **45 minutes a day** during the 8:00 AM–11:00 AM New York–London session overlap ([C-002]) to pull **$10,000 a month** out of institutional order flow ([C-002]).

And the price of admission costs less than a Saturday night steak dinner: unlock a $100,000 Funded Trader Evaluation today for just **$497** (or test the waters with a $10,000 starter challenge for **$89**)—with a **100% fee refund** bundled automatically into your very first profit split ([C-003], [C-014]).

SECTION 4: THE NAME — DECING "SMART MONEY CONCEPTS" (SMC)

Why did old-school retail traders struggle back in 2015? Because they were drawing juvenile retail support lines, double bottoms, and RSI oscillators while interbank algorithms hunted their stop-losses for sport. Today, you are armed with **Smart Money Concepts (SMC)** ([C-002], [C-004]).

You aren't gambling anymore; you are reading the central bank's own footprints: **Institutional Order Blocks**, **Fair Value Gaps (FVGs)**, and the mechanical 9:30 AM New York **Liquidity Sweep** ([C-004], [C-008]). Once you install the pre-colored indicator template, the chart practically labels the money for you.

[COLLAGE ARTIFACT #02 — THE NUMBERLESS "ROCKET CHART" AD]:
`[ RETAIL STOP HUNT ZONE ] ⟶ [ 9:30 AM LIQUIDITY SWEEP ] ⟶ [ 1:5 R:R INSTITUTIONAL EXPANSION 🚀 ]`
"Stop trading like the 95% retail herd. Trade like the Central Bank Algorithm in 45 minutes a morning!" ([C-002], [C-011])

SECTION 5: THE GURUS & COMPOSITE TESTIMONIALS

[GURU PITCH HALL OF FAME — COMPOSITE]:
*"Bro, the interbank delivery algorithm runs on a 90-minute clock. It has to sweep retail liquidity before it expands. Once you pass your **$200,000** evaluation in 14 days, a single 5% month drops **$9,000** straight into your account—and the prop firm refunds your **$497** audition fee on the house. Use code **LIQUIDITY20** before the checkout timer hits zero."* ([C-001], [C-003], [C-013])

Composite Testimonial Carousel ([C-007])

• *"I used to work 50 hours a week in auto parts. After learning the 9:30 AM Liquidity Sweep, I passed my $100,000 evaluation in two weeks and framed my Funded Trader Certificate above my desk!"* — Composite Social Proof Banner ([C-007], [C-008])

• *"No inventory, no clients, no overhead—just my laptop, a cup of coffee at the London-NY overlap, and a 90% profit split every 14 days."* — Composite Webinar Slide ([C-006], [C-007])

CHAPTER 1 VERDICT BAND: $200,000 in institutional buying power, 90% profit splits, 45 minutes a morning, and a 100% refundable $497 entry fee ([C-001..C-003]). Honestly, why is Greg across the street still ironing his shirt?

PHASE 1 · VIBRANT HOPE // CHAPTER 02 · RECTO OPENER

CHAPTER 2: THE SUCKER'S ROADMAP

ASSEMBLY MANUAL: MODEL #FT-200K · ESTIMATED BUILD TIME: 14 DAYS · DIFFICULTY: EASY

Congratulations on your purchase of the **FUNDED-TRADER-200K™ Financial Freedom System**! Please lay out all components on a clean surface and verify your hardware count before beginning assembly.

Part #	Qty	Component Description (As Sold, [C-003, C-008, C-009, C-010])	Quoted Price
PART-A	1×	**2-Step Prop Evaluation Credential** ($10k starter or $100k flagship; 100% refundable upon first profit split)	$89 – $540
PART-B	1×	**TradingView Charting Screen + Smart-Money Overlay** (Pre-shaded green & red institutional zones)	Included / Trial
PART-C	1×	**MetaTrader 5 / cTrader Mobile Terminal** (Optimized for screenshotting blue rows from luxury car dealerships)	$0.00 App
PART-X	0×	**Instructions for Step 7** *(Not included in starter carton)*	N/A

STEP 1: SELECT YOUR INSTITUTIONAL CAPITAL TIER ([C-003, C-008])

Directive: Navigate to the evaluation checkout portal, paste your favorite YouTuber's 20% discount code into the promo box ([C-013]), and select the $100,000 or $200,000 account size for $497–$540 ([C-001], [C-003], [C-008]).

🔧 **ASSEMBLY TIP #1:** Don't waste time starting small! A 5% gain on a $10,000 account is only $500, whereas the exact same mouse click on a $200,000 account pays you $9,000 after your 90% split! ([C-001], [C-002])

STEP 2: SNAP ON THE SMART-MONEY INDICATOR OVERLAY ([C-008, C-009])

Directive: Open TradingView and attach the proprietary Smart-Money Concepts template ([C-008], [C-009]). Your screen will automatically populate with pastel boxes labeled BOS (Break of Structure), CHoCH (Change of Character), and FVG (Fair Value Gap).

🔧 **SYSTEM™ INSTRUCTIONS ([C-011]):** No economics degree required! When the indicator draws a green box, that means JPMorgan and Goldman Sachs just left their wallet on the table for you.

STEP 3: AWAIT THE 9:30 AM NEW YORK LIQUIDITY SWEEP ([C-008])

Directive: Sit down at 9:25 AM EST with an artisanal cold brew. Watch price dip briefly below the London session low to "sweep uninformed retail stop-losses" before reversing sharply upward ([C-008]).

STEP 4: INSERT THE 1:5 RISK-TO-REWARD BRACKET ORDER ([C-008, C-011])

Directive: Risk a tidy 1% of your evaluation balance with a tight 5-pip stop loss and set your take-profit target at +5% (1:5 R:R). Close your laptop by 10:15 AM and head to the gym ([C-002], [C-008]).

STEP 5: CLEAR PHASE 1 (+8%) AND PHASE 2 (+5%) IN 14 DAYS ([C-001, C-008])

Directive: Repeat Steps 3 and 4 three times over two weeks. Your 1:5 risk-to-reward bracket clears the +8% Phase 1 target on Tuesday and the +5% Phase 2 verification target the following Thursday ([C-001], [C-008]).

STEP 6: FRAME YOUR GOLD CERTIFICATE & WITHDRAW 90% BI-WEEKLY ([C-006, C-008, C-013])

Directive: Download your gold-embossed JPEG **Funded Trader Certificate** (complete with cursive CEO signature and QR code, [C-008], [C-013]), collect your 100% evaluation fee refund ([C-003]), and schedule automatic 90% profit-split withdrawals every 14 days ([C-006], [C-008]).

🔧 **TROUBLESHOOTING GUIDE ([C-010, C-011]):**

• *Q: What if my trade gets stopped out?*

• *A: Simply wait for the next 90-minute algorithmic macro cycle! With a 1:5 risk-to-reward ratio, you can be wrong four times in a row and still come out ahead on trade five!*

STEP 7: [MISSING FROM FACTORY CARTON]

STEP 7 WAS NOT PROVIDED.

[PART #07 OMITTED FROM STARTER KIT · SEE CFTC & COHORT AUTOPSY ON PAGE 19]

Step 7 was not provided ([C-010]). Specifically, the assembly brochure omits how a human being is supposed to clear an +8% Phase 1 target and a +5% Phase 2 target inside an internal B-book server while handcuffed to a **5% intraday equity trailing drawdown limit** and a negative-expectancy spread-plus-commission drag that mathematically requires a **64% raw win rate** just to break even before the evaluation clock expires ([C-010]).

CHAPTER 2 VERDICT BAND: Six breezy steps on glossy blue paper, one giant missing parachute at the bottom of the box ([C-008, C-010]). Turn the page—we're opening the server room door.

END OF PHASE 1 (VIBRANT HOPE)

THE BROCHURE ENDS HERE.

Everything you just read in Chapters 1 and 2 was constructed strictly from the industry's own sales pages, VSL scripts, and checkout banners (`Claim Rows C-001 through C-014`).

On Page 19, we bring in the CFTC enforcement accountants, the 420,000-account cohort telemetry, and five coroner's dossiers from the trenches.

NEXT: PHASE 2 · DEMOLITION (CHAPTERS 3, 4, 5 & 6) ⟶ PAGE 19

END OF FREE 2-CHAPTER PREVIEW

YOU JUST READ THE BROCHURE. NOW READ THE AUTOPSY.

In Chapters 1 and 2, we gave you the exact 6-step Funded Trader roadmap the gurus sell for $997—right up to the bottom of Page 13 where **Step 7 was not provided** ([C-010]).

In Chapters 3 through 8 of the full 64-page edition, we open the CFTC enforcement ledger ($310M in fees, 98.4% simulated B-book execution), examine 5 coroner case files on aged amber paper, and hand you 4 concrete pivots paying $38.90 to $55.00/hr.

UNLOCK THE FULL 64-PAGE BOOK ($9.99) OR THE COMPLETE BOOK + 25-MIN PODCAP + PAMPHLET BUNDLE ($19.99) AT ITISWHATITIS.BIZ
